

# QATAR CIVIL AIRCRAFT REGISTER

This register is very much a 'work-in-progress', but the information does not seem to be available elsewhere in a coherent form. Confirmed sightings, corrections and additions would be very welcome to [steve.darke@pswld.com](mailto:steve.darke@pswld.com)

Aircraft believed to be currently-registered (although in the absence of official data, and not necessarily active) are highlighted in green, thus **A7-AAG**.
