CAMBODIAN CIVIL AIRCRAFT REGISTER

PHOTO PAGE

This register is very much a 'work-in-progress', but the information does not seem to be available elsewhere in a coherent form. Confirmed sightings, corrections and additions would be very welcome to steve.darke@pswltd.com

Although primarily a listing of civil aircraft, many Royal Cambodian Air Force (RCAF) aircraft use / used civil-style XU- prefixed serials, and are also listed here (where known).

For detailed information on many of the 1960's and early 1970's XU- aircraft there is no better source than Dr. Joe Leeker's on-line pdf e-books, referred to below.

Aircraft believed to be currently-registered (although in the absence of official data, and not necessarily active) are highlighted in green, thus XU-001.

Details of previous and subsequent histories shown in green italics thus *[nnnnn]*
